EDUCATION

Don Bosco Institute of Technology   Bangalore, India

Bachelors in Electrical and Electronics Engineering; GPA: 7.87   **Sept 2007 - July 2011**
St Columba's Colle   **Jharkhand**, India
Intermediate (PCM): GPA: 6.54   **June 2003 – July 2005**

SKILLS SUMMARY

- **Languages**:   Html, CSS, JavaScript, SQL, JAVA, Python, Typescript
- **Frameworks**:   NodeJS, React, Mongo DB
- **Tools**:   Power BI, Excel, PowerPoint, MySQL, SQLite
- **Platforms**:   Visual Studio Code, Visual Studio, Android Studio
- **Soft Skills**:   Rapport Building, Team Building, Creativity, Teamwork, Critical Thinking, Excellent communication

WORK EXPERIENCE

Software Developer | ND | link   **January 24- January 25**
- Constructed and maintained full-stack .NET applications using C#, resulting in a 15% decrease in software defects and improved code maintainability across all projects during a 6-month period.
- **Wrote** 10,000+ **lines of clean, maintainable, and efficient code**, reducing bug occurrences by **25%** across full-stack technologies...
- **Conducted** 50+ **code reviews**, providing constructive feedback that improved overall code quality by **40%** and enhanced team skill development.
- **Utilized Git for version control**, managing **500+ commits** and ensuring **99.9% uptime** in production releases.
- **Supported and maintained** 10+ **existing applications**, fixing **200+ bugs** and implementing **50+ feature enhancements**, increasing application stability by **35%**.

PROJECTS

Job Portal | LINK   **January 2025**
- Designed and developed a Job Portal using MongoDB, Express JS, ReactJS, and NodeJS.
- Implemented user authentication (signup/login) using JWT for secure access.
- Developed job posting and application features with CRUD operations.
- Built a search and filter system for jobs based on categories, location, and salary.
- Managed user roles (job seekers and employers) with appropriate permissions.
- Integrated resume upload and profile management functionality.
- Optimized API performance and handled database queries efficiently.
- Implemented responsive UI using Shadcn for better user experience. Used React Router for seamless navigation between pages.

Reddit Porta | LINK   **October 2024**
- **Teck Stack used for Front End** is React.js, HTML, CSS.
- **Authentication** OAuth (Google, GitHub, or other OAuth providers) for secure login.
- **State Management** React Context API / Redux (for managing global state).
- **API Integration** Fetch/Axios for handling API requests.
- **Styling** CSS Modules / Styled Components for modular styling.

CERTIFICATES

Full Stack development (NS) | CERTIFICATE   **March 2023**
- Contributed to the development of a new feature that increased customer engagement by 15%.
- Optimized existing codebase, resulting in a 10% reduction in processing time.

Gold Medalist (DBIT) | CERTIFICATE   **JULY 2011**
- Awarded a **Gold Medal** for consistently achieving **70%+** throughout all semesters in the **BE program**.
- Recognized for academic excellence and commitment to maintaining high performance in coursework and project

Social and Welfare (UNICEF) | CERTIFICATE

- Assisted in vaccination drives, awareness, and operations.   March 2014
